

Year 3 Summer Half Term 2 Parents' Leaflet

Mathematics

We will calculate the distance from the sun and the moon.
We will measure shadows as they change during the day.
We will calculate and measure the water consumption of plants.

Creative Carousel

The activities this half term for Year Three are:
Music, Cooking or ICT.

Literacy Work

We will be introduced to a new book called The Lost Happy Endings. .
We will read poems and make our own poems up.

Values

We will be looking at our own values and what choices we make.

PSHCE

We are reflecting on Year Three and preparing ourselves for our move into Year Four.

This half term our topics are:

Science: Can you lose your shadow?

&

How did that blossom become an apple?

Learning Challenge: What did the Ancient Greeks do for us?

Enterprise

We will be thinking of new enterprising ideas to help us "make our money grow" ..

Science

We will start our Light and Shadow topic. We will also look at the function of different parts of plants, what they need to flourish and the journey of food into a plant.

Religious Education

We will continue the work we started last half term on Journeys.

Computing

Our topic is Data Handling and we will be processing information from polls conducted in school.

Thank You for your support this year. We cannot believe how fast the school year has gone and are very sad that your children will be leaving us and entering Year Four. We wish them all the best and know they will continue working hard.

French

We will compare school and home life in England and France.
