

Year 3 Summer Half Term 2 Parents' Leaflet

Mathematics

We will calculate the distance from the sun and the moon.
We will measure shadows as they change during the day.
We will consolidate all our mathematical learning.

Creative Carousel

The activities this half term for Year Three are:
Music, Cooking or Art Skills.

Literacy Work

We will be reading Greek myths and then re-tell a myth in first person.

Values

We will be looking at our own values and what choices we make.

PSHCE

As part our Healthy Schools Week we will be looking at healthy minds and bodies and being happy.

This half term our topics are:

Science: Can you lose your shadow?
Learning Challenge: Has Greece always been in the news?

Healthy Schools Week

We will be taking part in a whole week of fitness and healthy eating. (8.7.19)

Science

We will start our Light and Shadow topic with a Science Day. We will be measuring the length of a shadow throughout the day and looking at different shadows and light sources.

Religious Education

We will continue the work we started last half term on Journeys.

Computing

Our topic is Data Handling and we will be processing information from polls conducted in school.

Thank you for your support this year. We cannot believe how fast the school year has gone and are very sad that your children will be leaving us and entering Year Four. We wish them all the best and know they will continue working hard.

French

We will compare school and home life in England and France.
