

Talk to your child about where different animals come from. Share animal books with your child, both fiction and non-fiction. Talk about how to care and look after animals. If you have a pet, encourage your child to help you feed it, take it for walks. Write instructions together about how to look after your pet or a pretend pet.

Creative ideas for home...

- Make an animal out of junk
- Make a sock puppet snake
- Make a jungle with puppets out of a shoe box
- Move like different animals
- Encourage birds into your garden by making a bird feeder
- Make your own information book about different animals

Sing number songs with your child that relate to animals and encourage simple calculation - 1,2,3, 4, 5 once I caught a fish alive / 5 little ducks went swimming one day / one elephant went out to play / 5 little fishes.

You can support your child with alliteration by playing I spy, making up silly sentences beginning with the same sound e.g. Silly sally sausage, Meg mog mully moo. Encourage your child to blend sounds together by playing games such as find the object using robot talk e.g. put your c-o-a-t on. Change the words in our favourite rhymes e.g. Hickory Dickory Dable, the mouse ran up the cable.

Our theme this half term is...

Animals

We will be basing a lot of our activities around our core book

My Perfect Pet by Stuart Trotter

Our core book will be sent home with every child to share during the term alongside an activity pack.

In Mathematics we will be focusing on simple addition and comparing quantities (some children may move onto 1-20), looking at size, pattern, weight and length in relation to our topic.

Encourage your child to recite the number names in order from 1-10 and beyond if able. Count jumps or clap hands together when counting.

Play number recognition games e.g. snap with numbers cards, what numbers can you see on doors, in the supermarket etc, number jigsaws, number hunt around the house, draw a hopscotch on the ground outside and so on...

This half term we will be focusing on name recognition and for those that are ready we will work on writing their name using our pre-cursive style.

This half term we will be finding out about animals and how to look after them. We will be talking more about our class friend, 'Rolly'.

Can you Google 'care of hamsters' and find out more?

CHALLENGE

This term's challenge is...

To draw a picture, create a collage or a sculpture of their favourite animal or pet and bring it into Nursery to be displayed.

Key Dates

- 4/3/20 - Parent consultations
- 5/3/20 - Parent consultations
- 5/3/20 - World book Day (details to follow)
- 3/4/20 - School Closes for Easter
