

Year 3 Summer Half Term 2 Parents' /Carers Leaflet

Mathematics

We will focus on:

- Calculating the perimeter.
 - Measuring in centimetres and metres and converting between the two.
 - Reading, writing and showing the time to 5-minute intervals.
- Consolidating our learning on the four operations.

Creative Carousel

This half term we will concentrate on
Design Technology
Levers and Linkages

English

We will be completing work on the book Five go off to Camp by Enid Blyton
We will write a short section of a story following on from what we have read so far (using relevant language linked to Enid Blyton style).
We will also write a non-chronological report based on the Yorkshire Dales.

PSHE

We will be looking at healthy minds and bodies and being both mentally and physically well.

This half term our topic is:

Geography:

Dales on Your Doorstep

Values

We will be looking at our own values. We will focus on the choices we make and also how they may impact others and their feelings.

Science

We will continue our Light and Shadow topic . We will be measuring the length of a shadow throughout the day and looking at how to make different sizes and shapes of shadows.

Religious Education

We will continue the work we started last half term answering the question: **How do believers use symbolism to show their beliefs?**

Computing

Our topic is simulations and graphing.

Thank you for your support this year. We cannot believe how fast the school year has gone and are very sad that your children will be leaving us and entering Year Four. We wish them all the best and know they will continue working hard.

French

We will be learning more about the country of France.
