

Year 3 - Summer Half Term 1 Parents' /Carers' Leaflet

Mathematics

Fractions: Splitting shapes objects and numbers into fractions including halves, thirds and quarters as well as adding fractions with the same denominators.

Money: We will learn to count money (up to £10), make amounts of money in different ways then we will add and subtract amounts of money.

Values

Our value this half term is Liberty.

Science

We will learn about sources of light, how light travels, what are reflectors of light, how shadows are made and how to stay safe in the sun.

Geography

We will be exploring the human and physical features of the Yorkshire Dales. We will look at OS maps of the Yorkshire Dales and discuss the symbols used on these maps as well as finding locations and facilities of maps using 4-figure grid references.

English

Our English work will revolve around a child version of The Secret Garden. We will create two pieces of writing: a letter to the father and a setting description of the garden.

PE

Football
Rounders

This half term our topic is:

Geography:

Dales on Your Doorstep

French

We will learn the correct French words for pets and other animals as well as recapping classroom objects in French.

Creative Carousel

We are going to use paint to create a wash and over time create a layered landscape scene from the Dales. We will start with a wash. We will also look at mixing powder paints and shading techniques .

Computing

We will be looking at databases. We will learn to sort objects using just 'Yes' or 'No'. We will then move onto creating our own database.

How you can help?

You can help your child by listening to them read and encouraging them to work on their homework challenges.
